Gameplan will free up your coaches time to spend more time coaching football

Automate menial tasks in seconds

Reduce time spent on mundane tasks. Automate tasks from practice card to **labeling game film.** Coaches can set up automations to produce **what is needed, when it's needed**

Enable instant. seamless data insights

Empower your analytics team to spend their time developing new strategies and insights instead of pulling data each and every week. Interconnect coaching platforms and services to automate repetitive processes

Work with proven reliability on an integrated platform

Built on the back of a DoD-trusted platform, our system is both highly robust and accurate. We can **eliminate human errors** and **ensure accessibility** in any situation

Our tech will give you an edge by streamlining game planning and providing better insights

Insights you want

Analyze every game **in your own language.** Utilize custom dashboards that only display information relevant to you and integrate with your film watching process

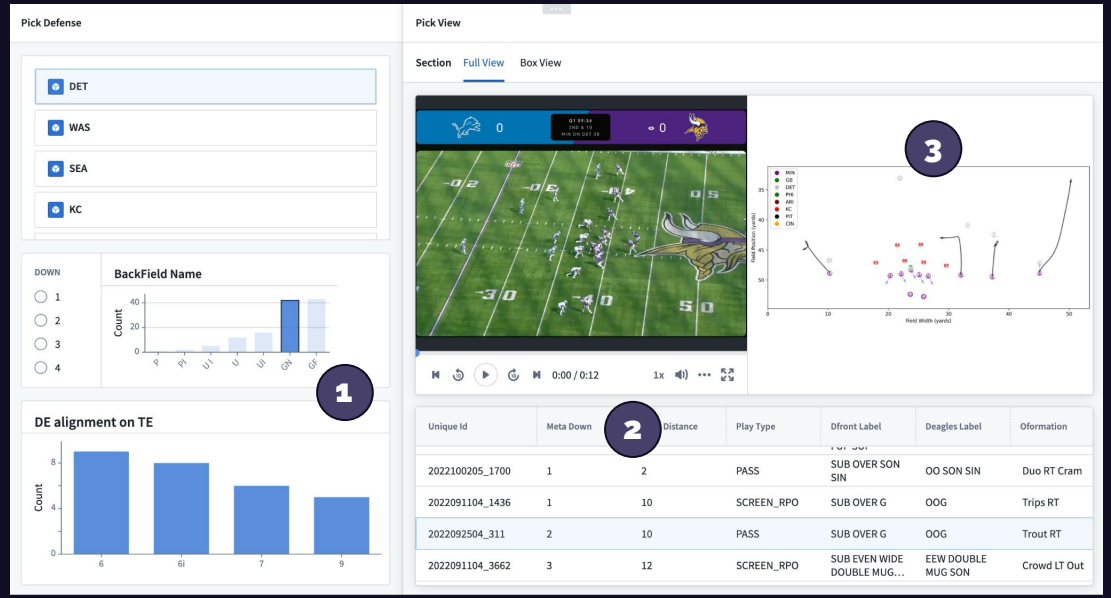
Available fast

Automated processing and seamless integration provides labels, film, and analysis **mere hours after the game is over,** enabling an earlier start to weekly gameplanning and real-time insights

Proven Reliability

Built on the back of a DoD-trusted platform, our system is both highly robust and accurate, **eliminating human errors** and **ensuring labeling consistency** with our rules-based approach

Investigate tendencies in your coaching language all in a film room built for each coach

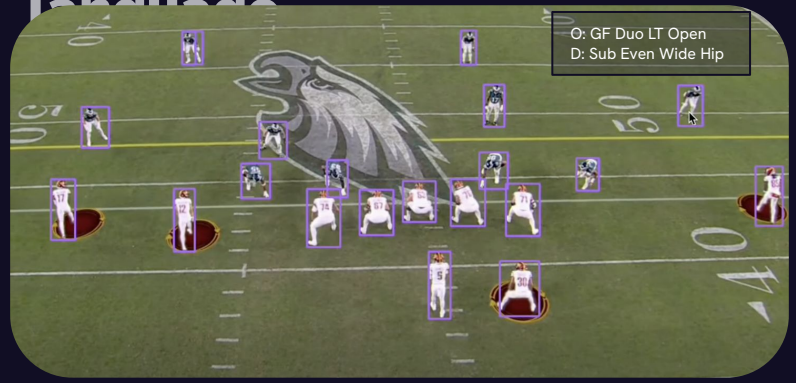


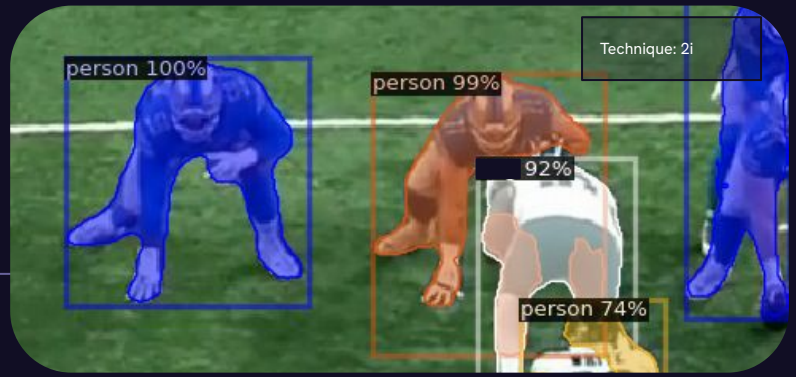
1 **Custom reports made for you**
See only the stats and instantly create cutups with any subset of plays

2 **Automatic labeling**
See labels in your language with computerized consistency hours after the game ends

3 **Custom playart**
Understand a play call instantly with descriptive playart and responsibilities

Our proprietary rules-based system allows us to instantly detect formations and fronts in your coaching language





Our Gameplan Engine

Our software can create labels in your team's language with **any level of granularity or focus.**

We ingest your team's language and apply a custom rule set to label plays with **computerized consistency**.

We analyze **all parts of the play** from the play call to the techniques, leverages, and assignments of individual players

Unique Id	Meta Down	Meta Distance	Play Type	Dfront Label	Deagles Label	Oformation
2022091104_1502	2	2	SCREEN_RPO	SUB EVEN TITE	EET	Crowd LT
2022092504_2639	2	10	RUN	SUB OVER G SUP	OOG SUP	Dice LT Nasty Stack
